

[Claim]

[Claim 1] A composition comprising an acrylic copolymer containing from 3 to 25% by weight of hydroxyethyl (meth)acrylate as a constituent, a plasticizer and a pseudo-crosslinking compound, wherein the ratio of the content of the plasticizer to the content of the pseudo-crosslinking compound ranges from 30:1 to 250:1.

[Claim 2] The composition according to claim 1, wherein a content of the plasticizer is from 30 to 200 parts by weight relative to 100 parts by weight of an acrylic copolymer.

[Claim 3] The composition according to claims 1 or 2, wherein a content of the pseudo-crosslinking compound is from 0.3 to 10 parts by weight relative to 100 parts by weight of the acrylic copolymer.

[Claim 4] The composition according to any one of claims 1-3, wherein the acrylic copolymer is a copolymer comprising one or more from alkyl (meth)acrylate, hydroxyethyl (meth)acrylate and N-vinyl-2-pyrrolidone.

[Claim 5] The composition according to claim 4, wherein the alkyl (meth)acrylate is one or more consisting of an alcohol ester with an alkyl group of carbon numbers 4-6, a content thereof being from 30 to 80% by weight based on the entire copolymer, a content of hydroxyethyl (meth)acrylate is from 3 to 25% by weight based on the entire copolymer, and a content of N-vinyl-2-pyrrolidone is from 5 to 25% by weight based on the entire copolymer.

[Claim 6] The composition according to any one of claims 1-5, wherein a shearing strain migration length (3g, 2min.) of a pressure-sensitive adhesive layer containing the composition is

not more than a thickness of the pressure-sensitive adhesive layer, and a shearing strain migration length (80g, 5min.) is not less than 10 times of a thickness of a pressure-sensitive adhesive layer.

[Claim 7] The composition according to any one of claims 1-6, wherein the pseudo-crosslinking compound is one or more from boric acid and/or a salt thereof, an amine compound, an aluminate and a phenol compound.

[Claim 8] A patch comprising a pressure-sensitive adhesive layer comprising the composition according to any one of claims 1-7, and a backing.

[Claim 9] The patch according to claim 8 comprising a skin valuable.

[Claim 10] The patch according to claims 8 or 9, wherein the skin valuable is a drug and/or a cosmetic material.
